**Description:** Six lucky hunters will join us this Spring for an unforgettable experience in remote Manitoba, Canada for trophy black bear. This outfitter's bear hunting raises the bar, and they are recognized as one of the select few in North America who truly offer trophy black bear hunting. This destination is acclaimed for its large number of BIG colored bears (cinnamons, chocolates and blondes) plus unbelievable fishing. These remote fly-in bear hunts are definitely one-of-a-kind!

The bear populations are excellent with many bears 300 - 350 lbs. 70% of the bears taken measure 6'6" or bigger with several over 7' each year. This is also one of the few areas in North America where hunters have a chance at large color-phase bears.

**Accommodations:** Each camp is on a lake, 7 - 20 miles long, insuring excellent water access to baiting locations and, of course, spectacular fishing. Each camp will hold 2-3 hunters. Stands are tree stands and tripods. Each camp has a satellite telephone or two-way radio, comfortable wall tents and cots, gravity-feed water system for showering, and generators and freezers for all camps
